has two separate filling units furnished with the materials all of which are fit for foodstuff processing and the machinery and equipment of the highest quality. Factory can fill 1100 tons per day as pet and tin packaging on 5 production lines.

For successful brand identity, ease of pouring, safe handling and good haptic perception slim waisted form is being designed. For unification of the label area with form aesthetically oil drop abstraction on label area is being created.

All these concepts combining graphics, form, usability and aesthetics guaranteed success in sales.

For structural resistance of pet packaging we designed sunflower seed reliefs on surfaces. From the lid to shoulder, dynamic and relief neck like design also created a strong and resistant body for toplod and vacuum problem. The form creating sense of possession is innovative, challenging but being easily produced.

The image features a white background with several sunflower seeds and petals scattered around. The seeds are bright yellow and have a distinct shape, while the petals are also yellow and appear to be falling or scattered. The text "SUN FLOWER" is written in a large, bold, black, sans-serif font, and "OIL" is written in a smaller, bold, black, sans-serif font below it. The overall composition is clean and minimalist, focusing on the natural elements of the sunflower.
